STATE OF ALABAMA

DEPARTMENT OF INSURANCE

MONTGOMERY

W G WARD JR
COMMISSIONER OF INSURANCE

February 21, 1984

Honorable George C. Wallace
Governor of Alabama
State Capitol
Montgomery, Alabama 36130

Dear Governor Wallace:

In accordance with the provisions of Section 27-2-9, Code of Alabama 1975, the Annual Report of the Commissioner of Insurance, covering the operations of all insurance companies authorized to transact business in Alabama in 1982, is transmitted herewith.

Your attention is directed to that portion of the Report entitled "Summary of Operations" which gives in some detail the activities of this Department.

The amounts used in the financial sections were taken from the Annual Statements filed by the various companies, without audit or verification.

Sincerely yours,

W. G. Ward, Jr.
Commissioner

WGWJr:dkh

Summary of Operations

The insurance business in Alabama continued to grow during 1982, at an increased rate, with Alabamians paying $3.2 billion in premiums for all types of insurance, an increase of 10.3%, compared with 4.1% in 1981, 7.6% in 1980, and 9% for 1979. The increase in the growth rate for 1982 was attributable largely to the increased cost of health insurance.

Premiums collected by property and casualty companies increased by only 4.3%, to $1,250,273,000, from the previous year, and the direct premium and annuity consideration for all life insurance companies increased by 9.0% to $828,135,000. Accident and health premiums totaled $1,126,258,717, an increase of 16.1%. Title insurance premiums totaled $5,443,953.

In 1982, the insurance industry paid to the Department $72,488,000 in premium taxes and fees. Of this amount, $55.6 million was deposited to the General Fund and $16.8 million to the Special Education Trust Fund.

Statistical data covering insurance premiums and losses are for calendar year 1982. Information regarding premium taxes and fees collected by the Department and Departmental disbursements is for the fiscal year October 1, 1981 - September 30, 1982.

The Insurance Department consists of six operational divisions. Agents' testing and licensing, life and disability, property and casualty, receivership, legal, and financial examination. Also a part of the Insurance Department is the State Fire Marshal's office. The Commissioner of Insurance is an ex-officio member of both the Alabama Securities Commission and the Alabama Arson Prevention Task Force.

Alabama's insurance laws require that all contracts of insurance, other than uncontrolled marine and aviation policies, be approved by the Department prior to their use in this state. A consulting actuarial firm is employed to review all life and accident and health policy forms. Any variance from required provisions of the Code or Departmental Regulations must be corrected prior to their acceptance.

There is no price regulation over life or accident and health insurance, except for certain Blue Cross - Blue Shield policies and Medicare supplement policies. Authority was given to the Department in 1981 to regulate rates applicable to those policies sold to supplement Medicare. Most property and liability rates, however, are subject to the Department's approval, and the services of consulting actuaries are obtained, when needed, to assist the staff in evaluation of property and liability rate filings.

The primary functions of the Legal Division include representing the Department in litigation and interpreting the Insurance Code. During 1983, the Legal Division conducted 35 formal administrative proceedings

against insurance agents and 8 proceedings against insurance companies. Numerous cases were settled without the institution of formal charges. In addition to administrative actions, the Legal Division represented the Department in 21 civil and criminal cases in state and federal courts on matters ranging from insurer receiverships to enforcement of fire codes in county jails and other public facilities.

Responsibilities of the Legal Division other than litigation involved reviewing 25 applications for the sale of securities in Alabama, drafting the Department's legislative program, and assuring proper interpretation of the Insurance Code. Code interpretations are provided not only to Departmental staff, but the public and insurance industry throughout the United States.

During 1982, the Receivership Division continued its efforts to close out its regulatory functions on insurance companies placed in receivership by the courts. At year-end 1982, there were three life insurance companies remaining in active receivership - Empire Life Insurance Company of America, Life Insurance Company of America, and Trustee Life Insurance Company. The Receivership Division closed out four life receiverships through negotiated reinsurance agreements with solvent Alabama insurers. Efforts to locate claimants of these closed-out receiverships continued throughout 1982.

The Examination Division scheduled 15,473 agents' licensing examinations for 8,243 applicants.

During 1982, Insurance Department examiners conducted 25 on-premises financial examinations of domestic insurance companies. The duration of these examinations varied from a few days to several months, depending upon the size and complexity of the company being examined.

Emphasis continues to be placed on improving the expertise and professionalism of the Department's staff of examiners. All insurance examiners holding the classification of Insurance Examiner II or Insurance Examiner III are required to qualify as an Accredited Financial Examiner or Certified Financial Examiner. These designations represent minimum standards of experience and training which have been developed by the National Association of Insurance Commissioners to assure that insurance examiners representing the several states meet certain minimum qualifications. At year-end 1982, two examiners from the Department had achieved the status of Accredited Financial Examiner and five had obtained the designation of Certified Financial Examiner, the highest category.

Each year, numerous insurers from other states make application for admission to Alabama. In 1982, our Admissions Committee reviewed 97 admission applications and approved 67 companies for licensing.

We are seeking to improve the efficiency of the Department by upgrading our facilities. In October, 1983, all divisions were consolidated into one location. We are now occupying the entire first floor of the Retirement Systems of Alabama Building located at 135 South Union Street, Montgomery.

We are also looking into the possibility of modernizing our Department through the introduction of data processing systems.

Another area that will need the Department's attention is the fact that we are charged with the responsibility of investigating and clarifying the status of multiple employer trusts. At the present time, we are investigating the various multiple employer welfare arrangements (MEWAs) in an effort to determine if additional legislation and funding will be necessary to carry out those responsibilities.

An abbreviated report pertaining to the State Fire Marshal's office is attached. Statistical data covering the activities of that office may be obtained upon written request.

Department of Insurance
Montgomery, Alabama 36130

Re: Annual Report
State Fire Marshal's Office
for the year of 1982

Dear Sir:

This report is submitted for your information and approval in accordance with Section 36-19-16, Code of Alabama, 1975.

In 1982, there were 147 fire fatalities in the state of Alabama. This is a decrease in fatalities from 1981 of 51 persons. This is the lowest fire fatality figure that we have had since 1975. The fire fatality figures are still much too high.

This office is continuing to assign priority to the investigation of fires involving fatalities. The State Department of Forensic Science has cooperated with this office by providing assistance in some instances with the fire scene investigation in an attempt to more accurately determine cause and origin of these fires. Blood samples are taken and submitted to laboratory and, in some instances, postmortem examinations are conducted in an attempt to determine contributing factors to the death. As a result, during 1981, four persons were convicted on the charge of murder and arson, and in 1982 five persons were convicted on the charge of murder and arson. This further points out the necessity for blood samples and/or postmortem examination to be conducted at the option of the coroner or Forensic Science personnel on all fire victims where no witnesses are available to substantiate the fact that the victim was alive at the time of the fire.

We have established clearly through blood tests that in many instances, involving fire fatalities, the individual has excessive amounts of alcohol in his bloodstream.

I would strongly recommend that this department pursue legislative action to at least require blood samples from all fire fatality victims together with the fact that all fatalities must be immediately reported to this office.

We have recorded sixty-one fatalities during 1982 as undetermined or not reported for proper investigation. The cause, of course, in most incidents is charged to asphyxiation or smoke inhalation based on absolutely no expert opinion or lab report. It may be possible that we are still burying murder victims in Alabama and the cause is recorded as accidental fires.

This office has endeavored to cooperate with fire officials, police officials, insurance companies, adjusters, State Building Commission, State Department of Pensions and Security, Bureau of Health Facilities Construction, State Department of Mental Health, and other state agencies throughout the state in conducting investigations, inspections and other duties and responsibilities of this office mandated by state law.

In 1982, personnel of this office conducted 749 investigations, action was initiated against 107 defendants for arson and other offenses, 82 convicted. Eighty-two defendants were brought to trial or other action was taken against them in cases which were pending at the beginning of 1982. Of the 82, 35 were convicted. Twenty-one cases are still pending court. The other 31 were nol prossed, dismissed or no billed.

There were 618 general inspections conducted in 1982. In addition, there were 108 gasoline service stations, bulk plant facilities, and other flammable and combustible liquids inspections conducted.

Forty-one inspections of county jails were made, and 20 inspections of city jails were made during the year.

There were 1164 inspections conducted through the enforcement of the state fireworks law. We issued 1294 permits and $47,985.00 was collected for permits.

In the enforcement of the state sprinkler permit law, 75 permits were issued, and we collected $7,500.00.

The Manufactured Housing Section conducted 19 on-site inspections, 36 inspections of manufacturing companies, for a total of 55 inspections of modular companies.

This section reviewed 75 construction plans and plan option reviews and 40 quality control manual reviews. Three hundred and ninety insignias were issued at a cost of $11,264.80. Plan review fees collected were $13,860.00 for a total of $25,124.80.

Two hundred-seventy-one licenses were issued to mobile home manufacturers and dealers at $100.00 each for a total of $27,100.00. $864.00 was received from miscellaneous sources, copying, etc. This division acts as the State Administrative Agency for the U. S. Department of Housing and Urban Development and received $67,872.00 for this service at a grand total of $95,837.00 collected for mobile home enforcement.

The state of Alabama is being flooded with various types of extinguishers which do not meet code requirements and, in some instances, may be a hazard to the operator. It is my recommendation that legislation be pursued which would require all portable fire extinguishers sold in the state of Alabama to meet Underwriters' Laboratory requirements.

It was recently called to my attention that an extinguisher service man for an out-of-state company was conducting inspections and tagging fire extinguishers without them being properly serviced or tested. We located this individual and reported this violation to his company, and he was immediately discharged. This and other incidents point to the necessity of our seeking legislation which would require permitting of all persons servicing fire extinguishers and commercial extinguishing systems to the extent that we are sure that these people are qualified to perform this task.

I would like to take this opportunity to express to you my appreciation for job performance of the State Fire Marshal's division. I am sure you are aware of the fact that the workload of this division is increasing each year, and especially in the last 12 months, without additional personnel. The secretaries of this division have done an outstanding job in assuming heavier workloads and assisting field personnel whenever possible in catching up with their report writing which was brought about by their heavy workload. I would highly recommend at least one additional secretarial position be established in this division to assist in issuing permits, and typing of reports for field personnel, so that this office may operate more effectively and efficiently in the future.

Sincerely,

Roy L. Thornell

Roy L. Thornell
State Fire Marshal
